

# **GEOTECHNICAL ENGINEERING SERVICES**

**FMG provides complete in house geotechnical engineering services including operation of our own drill rigs, a complete materials testing laboratory certified by the US Corps of Engineers, and a complete staff of trained technicians and registered professional engineers.**

*Experience...*

**FMG, Inc. has performed over 3,000 geotechnical evaluations throughout the western US and abroad. From glacial tills to lava flows, we have worked in a wide range of geological conditions.**
